This activity will be submitted to the RACGP QA and CPD Program for Category 2 points for the 2014 - 2016 triennium.
You are invited ....

This Men's Health Conference provides a unique and valuable opportunity for pathologists, specialists and clinicians to come together to explore current medical topics related to men's health issues.

Dorevitch Pathology is committed to providing medical practitioners with ongoing professional education and development programs and the opportunity to meet with experts in the medical field. Join us to learn more about how we can make a difference to men's health.

Keynote Speakers

Master of Ceremonies and Presenter
Dr Michael Carr-Gregg
Topic: Ten things every kid with Autism wishes you knew
Dr Michael Carr-Gregg is one of Australia's highest profile psychologists, who specialises in the area of parenting adolescents and adolescent mental health. He has worked in private practice as a family therapist, child psychologist and clinical psychologist, an academic and researcher, and for four years as a political lobbyist.

Special Guest Speaker
Nobel Laureate Barry J. Marshall AC
Clinical Professor, University of Western Australia
Professor Marshall and Robin Warren M.D. were the first to discover the correlation between Helicobacter Pylori and Gastric Ulcers. It was this discovery that led them to receive the Nobel Prize in medicine in December 2005.
Professor Barry Marshall will share his innovative approach to science, and will be interacting directly with delegates.
